

Core Slides

Wednesday, February 22, 2023

This is what you will see in your basic template

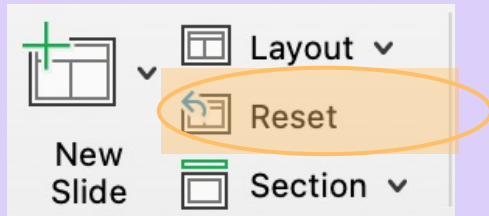

Single Column layout

I think we should include a 'core slides' section. These are slides that go in every single deck and how the template should begin for everyone. These should include:

- 1 column layout
- 2 column layout
- 3 column layout
- Team page (2 up)
- Chart/Side Bar
- Table Slide

I'm concerned users are going to feel a little overwhelmed with how many slides we have in this template.

Unfortunately, PPT has no way that I've found, to provide a custom formatted table as they do with charts. The closest I can get, is the default seen here.

About Table Formatting

There are a few extra steps to custom formatting the slide.

1. Drop in your table. The default is seen here.
2. Update the font size to at least 11 pt.
3. The title should be bold aligned bottom. You can use narrow for long #s and regular for the body. Aligned to middle either left or centered as per content dictates.
4. You can showcase certain lines or cells by filling them in or highlighting them as you see fit.

Default size is 6.8

Update to 11 pt

Our Mission

Reimagining healthcare to help patients live their best lives.

We believe in more. In closer connections. In deeper experience. In greater trust. Uplifting our people, upholding our values, and gathering the best and brightest to reimagine kidney care and help patients live their best lives. We are bold and unwavering, dreaming big, breaking from the status quo to drive change.

We care deeply about the people we serve.

We are on a mission to help people and we know the work we do changes their lives. Everyone deserves the best possible opportunity to live a healthier life so that's why we do what is right, especially when it's hard.

We are better when we work together.

Everyone is welcome and included. We value our differences and learn from each other. We collaborate with each other and our partners to help people with kidney disease live their best lives. This is no small feat, but we make no small plans.

Humility is a source of our strength.

We are curious and committed to learning. If there is a better way, we will create it. We have deep experience yet crave building new capacity and ability. We are setting a new standard in kidney care, forging a better path to improve lives.

We bring joy to our work.

We approach all we do with a positive attitude and with gratitude for each other and for the people we have the privilege to serve. We know we can make a difference and that's why we're here.
